Since the bond campaign is now over and in the past, and our people are in a frame of mind to listen to reason, we wish to set our little town, Columbia, in the proper light upon the bond proposition, especially those who favored the proposition. The road law does not permit any part of the State or county road fund to be expended inside the corporate limits of the town. The whole county lists for taxation this year \$2,807,000, and of this sum the town of Columbia lists \$530,000 which is more than one-sixth of whole levy, thus making the town pay one-sixth of the tax. The State pays one-half, the town one-sixth, (over one-sixth in fact) which leaves the rest of the county to pay one-third and the county get all the roads. Those living in town who favored the bond issue were willing to be taxed for the general good. No other motive can be assigned. It would be stupid in us to enumerate the motives of those citizens living in town opposing the bond issue.

It is time for the Democratic papers of the State to let up on the action of the State convention ousting certain men from political positions. The work has been done and those who disapprove of it, are injuring the party by continually bringing it before the people. Let by-gones be by-gones and go to work for the ticket.

A message from London says that the Prize Court of Great Britain condemned American products on four Norwegian ships. The goods are valued at several million dollars and declared forfeited to the British Crown because believed intended for Germany.

WAR SITUATION.

London, Sept. 16 (12:40 p. m.)

Coincident with Earl Kitchener's optimistic remarks in the House of Lords concerning the position of the Russian armies, they are showing an increasing disposition to reassume the offensive at many points on the Eastern front. They are not only pressing their attacks against the Austrians in Galicia, but for the most part are holding up the German rush in mid Poland.

The Russians also assert they have thrown back the invaders near Svientsyany, where the German cavalry cut the Petrograd railroad between Dvinsk and Vilna. The Germans' battery still holds out at the bridgehead near Dvinsk, although the Russians apparently are holding their opponents in check in this region.

Counting their captures in Galicia, the Russians lately have been taking more prisoners than they have been losing. In England hopes are rising that Earl Kitchener did not make an incautious prediction when he declared Germany had shot her bolt, but that his statement was based on facts.

It is said here that Von Hindenburg's drive is losing its vigor, while Von Mackensen is striving to overcome the difficulties of the marsh country and the Austrians appear to be unable to regain the upper hand in Galicia.

The Balkan situation has not reached a settlement. The British press views Bulgaria's attitude with some anxiety.

"Bulgarian aims," says the Manchester Guardian, "form the subject of increasingly anxious thought by the Entente Powers."

Several million of dollars worth of American goods, mostly meat products carried by four steamships, have been declared forfeited to the Crown by a British prize court. The court held that the products were destined for the German Government and not for the consumption in Denmark, whither the vessels detained were bound.

German newspapers have published by official permission dispatches intimating that Rumania's participation in the war may be momentarily expected, according to advices through Copenhagen.

Following Rumania's persistent refusal to allow war supplies for Turkey to pass through her territory, Austro-German troops have recently been massed on the Rumanian frontier, while Rumania has effected the mobilization of large bodies of her troops.

According to unofficial dispatches from Petrograd, the Russian Duma is to be prorogued immediately until the middle of November, an imperial decree to this effect, having been issued. Measures to forestall popular demonstrations are said to have been taken in Petrograd and Moscow.

It is reported through Athens

that the Turco-Bulgarian agreement will be formally ratified by imperial decree in Constantinople on Sept., 26, and that the new frontier will be traced by German officers.

Press advices from Petrograd received in Italy state that Emperor Nicholas has granted amnesty to all political prisoners, who number more than 100,000.

Two Austrian torpedo boat destroyers are reported in dispatches from Italy to have been sunk by an Italian submarine in the Adriatic.

There have been additional spirited artillery exchanges along the front in France, the activity having been particularly notable in the region of Arras, around Roye and in the vicinity of Lassigny. Further down the line, also, the big guns have been active, the firing extending into the Vosges Mountain region.

Mr. Keltner has rented the property that he received from Mr. Grady to Joel Rodgers, who will in the near future, move his family from Roachville to our city.
